(verse1)

I can't take this heat
I think I've fallen in too deep
Pressure's at its peak
And soon it all will be released

(bridge)

I've got my back up
Against the wall!
On my knees I had to crawl
This is the last line that I will draw
I've had enough, sick of it all!
I'm 'bout to go off

(chorus)

Overloaded!
Any second I could blow!
Overloaded!
I have hit the limit
And I'm ready to explode
Overloaded!
Gone as far as I can go
Overloaded!
Something got to give
I'm pushing past the last threshold

(verse2)

Pressure so intense
I start to crack under the stress
I can't contain myself
No tellin what could happen next

(bridge)

I've got my back up
Against the wall!
On my knees I had to crawl
This is the last line that I will draw
I've had enough, sick of it all!
I'm 'bout to go off

(chorus)

Overloaded!
Any second I could blow!
Overloaded!
I have hit the limit
And I'm ready to explode
Overloaded!

Gone as far as I can go
Overloaded!
Something got to give
I'm pushing past the last threshold
(brigde2)
So tightly wound
Filled with rage
Can you heat the countdown
Ticking away
Is it too late?
I thought I'd pull myself
Together someday
But everyday
It's getting harder to change
Everyday I'm getting harder to save
It's all I can take
You see me cracking
Under all of the weight
You see my spirit is beginning to break
I just want
Everybody out of the way!!

(The breaking bridge)
I'm about to go off
A ticking time bomb
(chorus)
Overloaded!
Any second I could blow!
Overloaded!
I have hit the limit
And I'm ready to explode
Overloaded!
Gone as far as I can go
Overloaded!
Something got to give
I'm pushing past the last threshold

Overloaded!
I have hit the limit
And I'm ready to explode
Overloaded!
Something got to give
I'm pushing past the last threshold
