"Strength In Numbers"

Visit "[Strength In Numbers](#)" on MotoLyrics.com

You're out of line
You've got nowhere to go
You started a fire
Too strong to be controlled
There's no more illusion
Power bought and sold
Now it's time for your head to roll

We've gotta open our eyes
And use that mob mentality
Against that public enemy number one
No need to take the power back
We already have it
Don't take it for granted

We got strength in numbers
The game is ours to change
If we don't like the way it's played
Strength in numbers

Strength in numbers
Too many to stop us now
You're taking more than we'll allow
Strength in numbers

You pull the strings
But never really lead
Your motivation driven by pure greed
Full of frustration
Take it to the streets
Show you who really runs this city

We've gotta open our eyes
And use that mob mentality
Against that public enemy number one
No need to take the power back
We already have it
Don't take it for granted

We got strength in numbers
The game is ours to change

If we don't like the way it's played
Strength in numbers

Strength in numbers
Too many to stop us now
You're taking more than we'll allow
Strength in numbers

We don't have to take it anymore
Take it anymore
We don't have to take it anymore
You're through!

What you hiding for
What you hiding from
Your time is up
You reap what you sow
Can you hear the mob
Knocking at your door
They're calling out for you

We got strength in numbers
The game is ours to change
If we don't like the way it's played
Strength in numbers

Strength in numbers
Too many to stop us now
You're taking more than we'll allow
Strength in numbers
