Am i bad?  
Am i hazard to your health?  
Do i not belong?  
Do you need to take a part of me away to show youre  
strong?  
Can't be put to rest and in the chest  
And work so long  
Give me back my life  
Is it one thing that i can't see  
Its another day so i dont believe  
Is it my luck, or is it just me?  
Anything you long to see in me  
Devote your life to resave me  
I dont need your help, go save a tree (?)  
You already took so much, dont you see  
I already asked to be set free

I will wait  
I cannot understand my problem  
I cant wait  
I have no choice  
Why bother with it?  
I will wait  
I cannot understand my problem  
I can't wait  
I have no choice  
Why bother with it?

What can this be?  
My judge of day i feel this way  
And no one is  
I'm so helpless  
I wish i knew a way to escape this dream of sins  
I dont feel right  
This isn't me  
I can't see my eyes are bent (?)  
Give me back my life  
Is it one thing that i can't see  
Its another day so i dont believe  
Is it my luck, or is it just me?  
Anything you long to see in me  
Devote your life to resave me

I dont need your help, go save a tree (?)  
You already took so much, dont you see  
I already asked to be set free

I will wait  
I cannot understand my problem  
I cant wait  
I have no choice  
Why bother with it?  
I will wait  
I cannot understand my problem  
I can't wait  
I have no choice  
Why bother with it?

*[moaning]*

Who do you think i am?  
Do you think i'm your problem?  
*[repeat 7 more times]*

Who do you think i am?  
Do you think i'm your problem?

(?)

I will wait  
I cannot understand my problem  
I cant wait  
I have no choice  
Why bother with it?  
I will wait  
I cannot understand my problem  
I can't wait  
I have no choice  
Why bother with it?
