## "A Deep Scar"

There's a deep scar inside me  
I was hurt twenty one years ago

I know the time heals scar...  
I know that one can forget...

I know the time heals scar  
I know that one can forget many things  
But I can't  
I still feel the same

Deep scar  
Deep scar

Various cases are out of control  
On callings for you with a desperate voice  
I'm falling on my knees

The situation has just appeared  
And there's confusion in it  
Little pieces stick in my heart  
The faith's hesitating

Moments of doubt are coming back to me

Deep scar  
Deep scar

The bitterness is the bread  
The one died a long time ago  
Where are those  
Who took away from me?
