Conquer in the name of god  
Human psycho in the mask of god  
Extermination - our law  
So we conquer, so we kill - our law

Unperfect  
Unperfect like a god  
Unperfect  
Unperfect like a god

Nobody in this world  
Knows everything about the dream  
Revelation - our war  
The perfect resolution - our law

The shame and misery  
Flowing through the mouth of god  
Condemnation - our destiny  
Proud and free with this gift

The worst nightmare  
Rising of the hidden beasts  
Recreation - our aim  
We know down social law

[Lead: Mister]

In the deepest dream  
All the reasonable travelers believe in  
Reconstruction - our hope  
So we fall and rise again - our hope

Unperfect  
Unperfect like a god  
Unperfect  
Unperfect like a god
