Feeling myself all of the time  
All of the time feeling alright  
Taking awhile raising a smile  
Raising a smile makes it all worthwhile  
But if you wanted to find peace of mind  
Then you could find it anytime you liked  
You are the afterglow  
Feeling my way all of the time  
All of the time doing just fine  
Taking a page out of my life  
Out of my life wouldn't it be nice  
But if you wanted to find peace of mind  
Then you could find it anytime you liked  
You are the afterglow  
You are the midnight show  
The only one I know  
You come and then you go  
And when you finally leave  
You leave nothing for me
