Title : All Been Done Before

I'll try and re-phrase what I said, oh
Mistakes until your eyes turn red
Glasses are breaking and you slam the door
It's all been done before

Morning as always you smile, oh
A tear when I won't even try
Question in starts and answers with a bow, oh
It's all been done before

Here we are again
Knowing how it's going to end,
Fighters made up,
We'll kiss and make up
Be satisfied for a while here

I know that I'll never change, no
No, not even for you
Everything about me disturbs you for sure
It's all been felt before

Here we are again
Knowing how it's gonna end
Fighters made up
We'll kiss and make up
Be satisfied for a while

Same things we've been through
Why do I even count on you?
I'll let you down and the other way around
Here we are again
Oh...

Is it really worth trying once more?
You know I got a lot left to live for
So let's say we make it this time
Are you the one?

Is it really worth trying once more?
You know I got a lot left to live for
So let's say we make it this time,
Are you the one..

Here we are again
Knowing how it's gonna end
Fighters made up
We'll kiss and make up
Be satisfied for a while

Here we are again
Knowing how it's gonna end
Fighters made up
We'll kiss and make up
Be satisfied for a while

Same things we've been through
Why do I even count on you?
I'll let you down and the other way around
Here we are again
Oh...
