Just a simple suggestion
That we don't need to follow
We could make it out of here
We could be there tomorrow
'Cause there's always tomorrow

We're so silly, oh so silly
Especially just ordinary
We've got nothing to hide now
We're green behind the ears

Just a pocket of people
They're all the right faces
As the crow flies
They got further to fly
Without a word or a lie

We're so silly, oh so silly
Especially just ordinary
We've got nothing to hide now
We're green behind the ears

We're so silly, oh so silly
Especially just ordinary
We've got nothing to hide now
We're green behind the ears
Green behind the ears
Green behind the ears
Green behind the ears
