

Travis "High As A Kite"

Visit "[High As A Kite](#)" on MotoLyrics.com

I'm high high high as a kite
I'm high high high as a kite
And I just might try and do it tonight
But only when the time is right

I'm low low low as you go
I'm low though I've been here before
If I go any lower you know
I'm gonna tell you that the time is right

I thought today the grey would all go away

That the blue was there so roses were red
But instead the red has gone to his bed
Oh no

I'm high high high as a kite
I'm high high high as a kite
And I just might try and do it tonight
But only when the time is right

Yeah I just might try and do it tonight
But only when the time is right
