Dont just stand there watching it happening,
I cant stand it, dont feel it?
Something telling me I dont wanna go out this way,
But Have a nice day.

Read it in the headlines, watch it on the TV,
Put it in the background,
Stick it in the back, stick it in the back.

For the beautiful occupation, the beautiful occupation,
You dont need an invitation to drop in upon a nation.

Im too cynical, Im just sitting here, Im just wasting my
time.
Half a million civilians are gonna die today, but look the
wrong way.

Read it in the headlines, watch it on the TV,
Put it in the background,
Stick it in the back, stick it in the back.

For the beautiful occupation, the beautiful occupation,
You dont need an invitation to drop in upon a nation.

Dont just stand there watching it happening,
Cant stand it, dont feel it?
Something telling me I dont wanna go out this way,
But Have a nice day.

Read it in the headlines, watch it on the TV,
Put it in the background,
Stick it in the back, stick it in the back.

For the beautiful occupation, the beautiful occupation,
You dont need an invitation to drop in upon a nation.

A beautiful occupation, a beautiful occupation,
So much for an intervention, dont call the United
Nations.
