Get out of bed while there's a reason  
Stand in the sun while there's a season  
Hold me again just like you mean it  
Tell all your friends just how you're feelin'

But you hold back the tears feel like a liar  
Covering all of your fears all your desire  
Finding your touching the tail of the tiger  
Out in the dark

Looks like the wheels just keep on spinning  
So pour me a drink while we are winning  
Up at the top they won't forget you  
Don't ever stop they're out to get you  
But you hold back the tears feel like a liar  
Covering all of your fears all your desire

Finding your touching the tail of the tiger  
Out in the dark

It's so far between each star  
So far  
And it's so dark between each spark  
So dark

But you hold back the tears feel like a liar  
Covering all of your fears all your desire  
Finding your touching the tail of the tiger  
Out in the dark
