#### Verse 1:

Girl just one look in your somewhat blue eyes  
That's all it took, for me  
You got me shook,  
Please don't take this the wrong way but you should  
f\*ck with me  
And I just want you closer,  
Every single time you be looking at me that way  
And I just can't get over,  
It's written in the clouds, and on your face

#### Chorus:

Then my sky falls the moment that I saw you standing  
there  
When time froze, a color in a field of gray  
Your beauty hangs alone,  
There's nothing in the world like blue electric roses  
girl  
Blue electric roses girl  
But girl, girl, girl, girl, girl,  
But girl, girl, girl, girl, girl,  
But girl, girl, girl, girl, girl,  
Blue electric roses girl  
Blue electric roses girl

#### Verse 2:

Don't go nowhere, you ain't got no place to go  
Girl stay right here for me  
I don't wlay fair when it comes to lovin' you  
I ain't gonna share baby  
And I just want you for sure  
Uh every single time looking at me that way  
And I just can't get over,  
It's written in the clouds, and on your face

#### Chorus:

Then my sky falls the moment that I saw you standing  
there,  
When time froze, a color in a field of gray  
Your beauty hangs alone,  
There's nothing in the world like blue electric roses

girl  
Blue electric roses girl

You know Iâ€™m into girl and crazy for you  
And all your blue electric roses canâ€™t be wet when the  
ocean will get to you  
Love at first I saw you, I told myself Iâ€™ll never let you  
go, let you go

Chorus:

Then my sky falls the moment that I saw you standing  
there,  
When time froze, a color in a field of gray  
Your beauty hangs alone,  
Thereâ€™s nothing in the world like blue electric roses  
girl  
Blue electric roses girl  
But girl, girl, girl, girl, girl,  
You could be  
But girl, girl, girl, girl, girl,  
You could be that one thing for me  
But girl, girl, girl, girl, girl,  
Girl I just wanna stay  
Blue electric roses girl  
Blue electric roses girl  
Yeah, yeah
