This might be a danger zone
(I said it)
When you and me are all alone
(It's scary)
I try to keep my walls up
Not sure if they hold up
I think that we're going down, d-down, down

[Bridge]
He's looking chaos and girls
We're young and reckless
We're looking like we're number one on the hit list
And if he gets a shot
He gonna take the shot
So girl we should watch it

[Chorus]

Because cupid's got a gun, got a gun
And he's aiming at us, aiming right at us
Girl, cupid's got a gun, got a gun
And he's aiming at us, aiming right at us
(Oh oh oh oh oh)
I think he got me
(Oh oh oh oh oh)
I think he got me
I think he got me
I think he got you too

I think it already started...
(Working)
I think I got it in my heart...
(I'm worried)
See I thought we were chillin'
Now we're catching feelings
I can feel it going down, d-down, down
