It's in your body  
It's the way you move (ohhh whoooo, ohhh whooo)  
It's the vibration pulsing through this room (whoa whoa)  
It's in your eye  
I know you feel it too (uuuuahhh ahhhh)  
Let's make it happen  
If we don't  
We can only lose

Chorus ? i wish i didn't care  
But i can't help it  
I'm feeling you baby  
I can't let you go, whoa whoa  
It's something in the air  
I need you right here  
I'm feeling you baby  
I can't leave you alone  
I don't wanna go  
Without you, without you, without you  
No I don't wanna go  
Without you, without you, without you  
No I don't wanna go  
Without you, without you, without you  
No I don't wanna go  
Without you, without you, without you

I need your touch  
I need you right now (now, now)  
Cause without your touch  
I start to break down (down down dddown)  
It's the rush i give when you're on the floor  
Chemistry is crazy  
Electrical (ohhh)

Chorus ? I wish i didn't care  
But i can't help it  
I'm feeling you baby  
I can't let you go, (can't let you go, whoa whoa)  
It's something in the air  
I need you right here  
I'm feeling you baby (I'm feeling you baby)  
I can't leave you alone

I don't wanna go  
Without you, without you, without you  
No I don't wanna go  
Without you, without you, without you  
No I don't wanna go  
Without you, without you, without you  
No I don't wanna go  
Without you, without you, without you

Don't go, go, go, go  
Don't go, go, go, go  
Don't go  
Can't help to think  
There's a reason to imagine  
Don't go  
Don't walk away cause i might never forget you

Chorus ? I wish i didn't care  
But i can't help it  
I'm feeling you baby (feeling you baby)  
I can't let you go, whoa whoa  
It's something in the air  
I need you right here  
I'm feeling you baby  
I can't leave you alone  
I don't wanna go  
Without you, without you, without you  
No I don't wanna go  
Without you, without you, without you  
No I don't wanna go  
Without you, without you, without you  
No I don't wanna go  
Without you, without you, without you

Can't help to think there's a reason to imagine  
Don't walk away  
Cause i might never forget you again  
Don't go  
Don't go
