Ah...

I know you want me  
I'm electromagnetic  
Feel the tension  
Refreshing'  
Second over

Boy I can feel the charge your given'  
It's running through my every nerve  
Can't you stay in frequencies for the signals that you  
thought you heard  
Now that you're hotwired, cause I'm on the circuit  
Once you take this electric vibe  
You just cannot reverse it

Super charge baby  
And I don't require batteries  
My current is retarded only abnormal electricity  
I'm open voltage  
And notice don't get electrocuted  
They're gonna drug you in  
But you can't get it..  
I'm electromagnetic

Baby,  
Shock me,  
Stimulate me with your static  
Shock me I'm your drug  
And baby you can be my addict  
Electromagnetic [x2]  
They just can't compete,  
I'm on my own  
I'm electromagnetic

I'm electromagnetic

Oh, I can make you lose it,  
Don't overload your generator  
Lockdown, I can shutdown,  
I can blackout you  
Won't remember later

You feel the surge overwhelm you,  
And can't control yourself  
But you better not blow your fuse  
From the shock that she just had

Super charge baby  
And I don't require batteries  
My current is retarded only abnormal electricity  
I'm open voltage  
And notice don't get electrocuted  
They're gonna drug you in  
But you can't get it...  
I'm electromagnetic

Baby,  
Shock me,  
Stimulate me with your static  
Shock me I'm your drug  
And baby you can be my addict  
Electromagnetic [x2]

That I can't explain this attraction  
We keep getting closer,  
Your body's like a magnet  
Pulling me in,  
Stimulating my senses now  
There's no resistance  
In your static,  
It's electromagnetic  
Baby,  
Shock me,  
Stimulate me with your static  
Shock me I'm your drug  
And baby you can be my addict  
Electromagnetic [x2]

I can be your drug and baby you can be my addict
