I told her cut the lights low
Turn on the stereo take your clothes off
Leave on the radio
Come sit close to me cause that's how it's supposed to
be
Maybe we can drink all drank smoke all weed
It's whatever she wants said it don't matter to me
She screams like yeah yeah
She gets on top of me
I get her from the back hit it form the side
There's aint no stopping me
She don't want him she just want me
But pimp that's obviously keep doing me slow
It's early in the morning quarter to four
She's teasing me and she drop it low
Ain't tryna move fast baby let's go
