### "Twilight"

The sun goes down on our last day  
we both know there's no other way for us  
and there's no hope to fix it now  
cause there's no turning back when the day is done

We know we've had better days  
and now its time we went our separate ways  
and its the twilight of our love  
baby its the twilight of our love  
and when the last light fades  
there'll be nothing left to say  
now its twilight

We couldve learned from our mistakes  
instead of pushing each other away away  
tomorrow wasn't meant for us us  
but I will hold you while we still have the sun

We know we've had better days  
and now its time we went our separate ways  
and its the twilight of our love  
baby its the twilight of our love  
and when the last light fades  
there'll be nothing left to say  
now its twilight

Its almost night time  
but I cant say goodbye to you to you to you  
and there's no more light left  
I wish we had more time left together together together  
cause were not done yet were not done yet  
so don't let the sun set

We know we've had better days  
and now its time we went our separate ways  
and its the twilight of our love  
baby its the twilight of our love  
and when the last light fades  
there'll be nothing left to say  
now its twilight
