Bah um bop diddy
The sun is high
The sea is calling out your name
You want to ride the waves
And oh I feel the same
And the sand is between your toes
Follow summer where it goes
Hope that it never stops
I can feel my heart rate drop
I wanna be right there till the end of time
Bah um bop diddy
Your board is waxed
You hit the surfline everyday
You sure the shore in oh oh oh so many ways
The sun gives you golden tan

As the sun sets go
It's the place you've got to go
Ohhhh oh oh ohhhh oh
And the sand is between your toes
Follow summer where it goes
Oh and it never stops
I can feel my heart rate drop
I wanna be right there
I wanna be right there
I wanna be right there til the end of time
