"A Tribute To The Past"

Follow us into the deserted town
It's the town of the forgotten sounds
Many rooms with different grounds
It was enchanting what we found
"Take the pearls of merit, they aren't just a little bit"
The game has begun, and so the search goes on

We're here to find the best, it's a Tribute to the past
The sound will ever last, it's a Tribute to the past
We didn't live in those days
But we pray the same prayers
It's a Tribute to the past

Watch the casket lying deep in the sand
You can see it's precious outwards
The view breaks out, immediate!
Now let's open the timeless gate
Come on people follow me directly into the treasury
That's what we want, on our treasure hunt

It's not the waste, it's not the rest
It's a Tribute to the past
It's not the withered, it's not the last
It's a Tribute to the past
We are the guardians of the heritage
Bring them all back to be the rage
Try to kindle for the keeper's sake
We are the guardians of the heritage
Bring them all back to be the rage
Again to be a rising fireblade
