[Originally recorded by Jerusalem]

There goes a warning, a warning in the nation
There's an army ready for invasion
There's a banner flapping in the wind
There's a battle declared against sin, against sin

They will always make the devil nervous, Join the army
They are cutting deep, far below the surface, Join the army

There's a people who knows to speak the truth
There's a people with no dignity to lose
There's a people that never pretend
There's a people with healing in their hands

And they are coming in the spirit of Samson, Join the army
Nothing is too big they don't pay attention, Join the army

Rebels of Jesus Christ, with music like thunder
Rebels of Jesus Christ, never, never, ever under
Rebels of Jesus Christ, rebels of Jesus Christ
Salvation, miracles, and we love you

Rebels of Jesus Christ, with music like thunder
Rebels of Jesus Christ, never, never, ever under
Rebels of Jesus Christ, swinging their weapons high
And we're fighting, and we're coming, and we love you
