Well I'm smokin' 'em up and I'm drinkin' 'em down
but that's the least of my worries right now
See I .. I lost my girl, I took it hard
Now on top of that I lose my job
Yes a honest job I can't make it on

An honest job I can't make it on
An honest job I can't make it on

Well I've got the itch to get rich quick
but I'm not sure that that is it
See I can't fit in and go along
With a honest job I can't make it on

An honest job I can't make it on
An honest job I can't make it on

Well I'm smokin' 'em up and I'm drinkin' 'em down
but that's the least of my worries right now
See I ... I can't fit in and go along
With a honest job I can't make it on

An honest job I can't make it on
An honest job I can't make it on
An honest job I can't make it on
