I've got a burning seed  
Burning deep in me  
The war is over but not for me  
It will never be  
Burning Burning Burning Burning Burning  
Burning Burning  
The answer my friend  
Is blowing in the wind  
The answer is blowing in the wind  
For my country I risked my life  
I made the sacrifice  
The war is over but not for me  
I still pay the price  
Contamination is not confirmed  
Yet my love still gets burned  
And my child is born deformed  
What did I do to ever deserve this  
I'm still suffering from my service  
Once I marched for war,  
Well I'm not marching anymore  
The answer my friend is blowing in the wind  
The answer is blowing in the wind  
Burning Burning Burning Burning Seed
