I suffer from this strange disease for there is no cure
only treatment which I can not afford the cause of this
disease remains unknown but it's effect yeah I know
well so I suffer for no explanation had a dream I
scratched my head a large chunk of flesh and hair fell
off exposing my naked skull it didn't hurt me so I did it
again blood flowed right down my neck showed my
friends I suffer from this strange disease they examine
me but they can't explain to me the reason for my
misery the cause of the disease they can't explain that
does not help me when I feel the pain.Suffer.....
