I don't know if I'm right but I know they're wrong they
try to weaken me but that just makes me strong I try I
try I try harder every day you can't put me down there's
just no way try to break me down try to break me down
try to break me down but there's no fucking way I try
harder every day Life is hard enough but they just want
too much I just can't relate to a senseless selfish mind
that hates you're gonna get ahead at any cost the real
value to life is what you've lost I try I try (chorus) try
harder every day try harder every day I try harder
every day STRONG- ALL DAY LONG I try harder every
day can't break me down there's just no way try to
break me down (2x) but there's no fucking way cause I
try harder every day- TRY
