"Revolution Now"

Visit "[Revolution Now](#)" on MotoLyrics.com

Well, I think it's really time again for a revolution,
Not to destroy at all costs but have a look at what's
there.

Can you remember a time when water was still water,
Or are you too young to even know what we won't give
to our heirs ?

Inhale the bliss of science through your lungs, skin
and brain !

It'll surely make our children feel a lot more sane.

Revolution now ! ... Revolution now ! ...

I was born when April guaranteed a sexual
renaissance,
And today we're all faced with death, rubbers and
AIDS.

In '68 some people went out to fight for freedom,
They would never ever have thought that their children
wear ties.

And if you come to San Francisco -
You're gonna meet some broken people there.

Revolution now ! Revolution now ! Revolution now ! Now
!

Revolution now ! ... Revolution now ! ...
Revolution now ! ... Revolution now ! ...
