"Room 139"

Visit "[Room 139](#)" on MotoLyrics.com

I'm an empty building
With a thousand rooms
Some locked and some open

My windows are tinted
But it's hard to see out
When you can't see in

I'm afraid to love you
'Cause you're always knocking
On my bolted doors

I was made to love you
But you can't get to the roof
From the ground floor
No... c'mon go

There's a room down the hall
We'll get away from it all
Love me back to where I began
There's a place deep inside
Where there is nowhere to hide
We'll turn on the lights
Down inside Room 139

I get tired of walking
Down the same old hall
The same fluorescent light

I hear people talking
But they won't shut up
They keep me up at night
C'mon go

There's a room down the hall
We'll get away from it all
Love me back to where I began
There's a place deep inside
Where there is nowhere to hide
We'll turn on all the lights
Down inside Room 139

From in here
We'll open up the wasted years
Build another floor
As you tell me more

There's a room down the hall
We'll get away from it all
Love me back to where I began
There's a place deep inside
Where there is nowhere to hide
We'll turn on all the lights
Down inside Room 139

We should go
C'mon go
C'mon go.
