"Wait Up For Me"

I'm the child prodigy
Someone you could never be
And someone you just couldn't have around

I'm the one who looks like you
In the puzzle of my youth
Looking for the pieces you threw out
Sleeping on the other side of town

Will you wait up for me?
Will you wait up for me?

Not too smart but I can dance
Strobe lights put me in a trance
Catch me before I hit the ground

Good and evil feel the same
My heart's hiding from my brain
Catch me before I hit the ground
Look for me inside love's lost and found

Will you wait up for me?
Will you wait up for me?

I burn to hear you on the phone
I burn for you to call me home
I burn in effigy
So high, so high, so high ...

Will you wait up for me?
Will you wait up for me?

So high, so high, so high

I am going to a place
Where the porch light's on in case
You forgot to stay awake for me.
