Waiting patiently is not an easy thing  
My mind buzzing with what could be  
With a heart that aches, anticipates  
Like a groom, Waiting room

From your balcony you'll be glittering  
Your eyes dancing all over me  
Come sweet liberty, come and turn the key  
To the room, Waiting room

Shine a light for me  
Just so I can see  
You can hear me sing  
If you hesitate  
If you make me wait  
I will stand by you, alone  
In your waiting room

I'll get up, get up the staircase someday  
Get up, get up, I'll climb that tree  
Get up, get up, and you will be with me

Shine a light for me  
Just so I can see  
You can hear me sing  
If you hesitate  
If you make me wait  
I will stand by you, alone  
In your waiting room

I'll get up, get up that staircase someday  
Get up, get up, I'll climb that tree  
Get up, get up, and you will be with me

Get up, get up that staircase someday  
Get up, get up, I'll climb that tree  
Get up, get up, and you will be with me.
