

Treponem Pal "In Out"

Visit "[In Out](#)" on MotoLyrics.com

You're laying on the floor
The straps are strained
Scorching yeah scorching your skin

And it's wet under you
Smells are rising as you're trying to struggle
Struggle struggle and I smile
I get closer but you shout
You shout

Feel my breath on your face
Closer and closer be my sweet sister
Make something for me
Let me be kind
Make something for me
Don't refuse me
Open yourself
Open yourself, yourself, yourself

It's in and out, in and out
In out

Oh tell me you love me
Don't close your eyes
I know you like it
When I'm sobbing like a child
I'm gonna, I'm gonna, I'm gonna
Shout

Shout
