We love you
What we need is love
But you come to us
You move your ass
Move your fucking tongue
You slut
Slut
Think about a fist in your ass
Am I a slut too
Try to make a fool of everyone
Am I a slut too
You're gonna taste the floor
What is it about love
We're gonna taste your sexual decline
Is this love
And if you give me a kiss
I'll send you to hell
Give me a kiss and I'll send you to hell
Our hearts burn
The body smell
Who wants love
Who needs love
