Look at this box  
Don't be afraid  
Guess what's inside, guess what's inside  
Fears or lust, flowers or dirt  
Fears or lust, flowers or dirt

What's in your head and what's in a box  
What's in your head and what's in a box

Just look inside, if you dare  
Take what's inside, it's what you need  
Kill the doubt it will show you

What's in your head and what's in a box  
What's in your head and what's in a box

The black box black box, well it's so full  
Black box, black box so full of what?  
So full of what?  
What?

Look at this box  
Don't be afraid  
Guess what's inside, guess what's inside  
Fears or lust, flowers or dirt  
Fears or lust, flowers or dirt

What's in your head and what's in a box  
What's in your head and what's in a box

The black box, black box
