Grace

oh grace she's never left me
i continually walk away and
take advantage of you just about every day oh grace
she's never left me
i try but i can't resist you keep hooking me like a fish
oh grace
she's never left me

chorus

and she's calling me from above
and drawing me
and drawing me to love

verse 2

oh i remember when i first met you
oh i thought i had to work for you
then i found out all that i had to do was believe
then you cleaned off my slate and somehow loved this
lump of clay, oh grace
she's never left me
