Hey Miss Feisty what's your name?  
You ain't got a deadline  
Maybe we can hang  
Oh let's talk  
I'm loving that swag  
Hair so long it comes down to your ass  
Oh baby I was leaving  
But damn that dress  
Looking so pricey, but yet priceless  
Yeah baby I'm a follow  
Tell me where to go  
You're my navigation shawty let's roll  
You know the destination tell me where to be  
Touching on your hair, down to your feet  
Down to the bed, into the bath,  
And beyond  
All you gotta do is ask

Oh baby I'm a take you to all the places you admire  
I could go low and make you go higher  
I can't let you go baby I tried but  
I just wanna let you know  
We can take it to the bed  
We can take it to the bath  
Girl we can go beyond  
All you gotta do is ask

Hey Miss Feisty what's your game  
Baby put me in cause I really wanna play  
I wanna post up low and take you to the hole  
I play all positions you already know  
We can go the distance bout a hundred miles  
Start off real fast then slow it on down  
Take you to bed,  
Then to the bath,  
And beyond  
All you gotta do is ask

Oh baby I'm a take you to all the places you admire  
I could go low and make you go higher  
I can't let you go baby I tried but  
I just wanna let you know

We can take it to the bed  
We can take it to the bath  
Girl we can go beyond  
All you gotta do is ask

If you wanna go beyond this world  
Grab my hand and get behind me girl  
Get you wetter than a bubble bath  
All you gotta do is ask, hey  
If you wanna go beyond this world  
Grab my hand and get behind me girl  
Get you wetter than a bubble bath  
All you gotta do is ask

Oh baby I'm a take you to all the places you admire  
I could go low and make you go higher  
I can't let you go baby I tried but  
I just wanna let you know  
We can take it to the bed  
We can take it to the bath  
Girl we can go beyond  
All you gotta do is ask

Baby I'm a take you to all the places you admire  
I could go low and make you go higher  
I can't let you go baby I tried but  
I just wanna let you know...
