[Intro]

Yeah

I got a question for you baby

[Verse 1]

Would you think a nigga rude

If I said I wanna fuck?

Right now (Whatchu sayin)

Beautiful, don't you be a prude

You know what you came to do

Gon lay it down

Got my J' rolled tight, and with a light

Think I left it on the table (Hey pass me that lighter,
girl)

You say you like a little white, that's alright

You can sniff off my navel (Noâ€"that's all you, I'm
good)

Let your body bust (Let your body bust)

The room spinning around (The room spinning around)

Show a nigga love

Give me some head now, for real

[Hook]

Baby I would never judge

This is something you can trust

And you know when left the club

We both wanted to fuck so

Won't you do it like you was my girlfriend (like you was
my girlfriend)

Like we going til the world end (going til the world end)

Both so high and (Both so high and)

Only for tonight can

You fuck me like you was my girlfriend

[Bridge]

Say you never done it even though I don't believe you

I would never judge you, no

Cause' I don't judge, nah

[Verse 2]

Don't the skylight shine so bright from the city coming
in through the balcony

Pretty pretty skin on your back glistening
While you put your mouth on me
I won't tell nobody nothing bout you and me
Promise that you'll do the same (For real)
You know how this shit be, for real

[Hook]

Baby I would never judge (I won't judge you)
This is something you can trust (Can I trust you?)
And you know when left the club (Ay, tell the truth girl)
We both wanted to fuck so
Won't you do it like you was my girlfriend (like you was
my girlfriend)
Like we going til the world end (going til the world end)
Both so high and (Both so high and)
Only for tonight can (Only for tonight)
You fuck me like you was my girlfriend

[Bridge]

Say you never done it even though I don't believe you
I would never judge you, no
Cause' I don't judge

[Outro]

Pretty pretty skin on your back glistening
While you put your mouth on me

Gon do it girl, gon do it girl
Gon do it girl, gon do it girl
Gon do it girl, gon do it girl
Gon do it girl, gon do it girl

Gon do it, gon do it
Gon oo it, oo it
Do it, oo it
