Yeah, yeah, yeah yeah, yeah

I bet her panties on the floor now,  
Hey, I can see going down, I'm ready now.  
And I don't wanna wait another minute, no no  
So, I want girl in the kind I handle business.  
I hope she's naked in the bed,  
I hope she tell me what she want  
Just so I can do whatever she says,  
I hope she put me to the test,  
What's up next, girl I came prepared  
Yeah, give it to her body real good  
Get up in her head, her head.

(Hook)

I know it ain't my crib, but I'm coming home  
Daddy's little girl, I'ma treat you like you grown  
Show you how I feel, ain't that what you want  
When I hit the door, all the clothes coming off  
And once I'm here, there ain't nothing better for sure  
Once I'm in, you gon' say it's forever yours  
It's forever yours  
Tell me it's forever yours, forever yours  
Yours, tell me it's forever yours

Hey hey, walking in the door now,  
Hey hey, candles burning all around  
She's ready now  
And there ain't no bounds, no limits, no no  
I'mma hold you so close when we finish,  
Girl, I hope  
I hope she's naked in the bed,  
(You are you are you are)  
I hope she tell me what she want  
So I can do whatever she says,  
(Tell me baby)  
I hope she put me to the test,  
What's up next, girl I came prepared  
Yeah, give it to her body real good  
Get up in her head, her head.

(Hook)

Yours, tell me it's forever yours

(Bridge)

I wanna do it real slow,  
If that's Ok, I wanna take my time  
And make your day, make your night turn into morning.  
Forever yours.

I wanna do it real slow,  
If that's Ok, I wanna take my time  
And make your day, make your night turn into morning  
From sunrise down onto the evening.  
Change sheets 6 times and that's just for the weekend,  
Call me the plumber man from the way it be leakin  
Gone so long girl I'm happy to be back,  
Yes I'm in the zone, can't another nigguh match  
I hope she's naked in the bed,  
I promise Imma do what these other niggus said  
They would, if they could.

(Hook)
