(Umm, no)

If I could be up in the middle of
Just wanna be up in the middle of
Middle of your love

If I could be anywhere in the world I would be
Inside your skirt, in you girl, between your knees
Everyday of my life, my life, my life

I just want to make your body really want to get it on
We can turn the bed into a stage and then perform
Your body's gettin' hot, girl, I could feel it's warm
I'll show you what I'll do

If I could be up in the middle of
(Middle of your love)
Givin' you a little, uh
(Like a cup, I'll fill you up)
Just wanna be up in the middle of
(Be up in the middle of)
Of your love, love, love, love

If I could be up in the middle of
(Middle of your love)
Givin' you a little, uh
(Like a cup, I'll fill you up)
Just wanna be up in the middle of
(Be up in the middle of)
Of your love, love, love, love

If I could be, believe me, girl, then I would be your
fantasy
I'll make you come right where I'll be, on top of me
So can we get that close, where I can feel your body
sweat
Tryin' to make your body wet

Can we, climb the mountain top, screamin' ecstasy
We so high up on this love, we reach the peak
We ain't never coming down, baby, keep makin' that
sound
If I could just be

If I could be up in the middle of
(Middle of your love)
Givin' you a little, uh
(Like a cup, I'll fill you up)
Just wanna be up in the middle of
(Be up in the middle of)
Of your love, love, love, love

If I could be up in the middle of
(Middle of your love)
Givin' you a little, uh
(Like a cup, I'll fill you up)
Just wanna be up in the middle of
(Be up in the middle of)
Of your love, love, love, love

It's got me open, willin' and ready
Baby, I'm open, listen up and hear me
I'm not tryin' to be in the front or the back
By the side just inside, deep inside
The middle of your love, ooh
Let me inside, let me in, let me in the middle

If I could be up in the middle of
(Middle of your love)
Givin' you a little, uh
(Like a cup, I'll fill you up)
Just wanna be up in the middle of
(Be up in the middle of)
Of your love, love, love, love

If I could be up in the middle of
(Middle of your love)
Givin' you a little, uh
(Like a cup, I'll fill you up)
Just wanna be up in the middle of
(Be up in the middle of)
Of your love, love, love, love
