### "It Would Be"

WOOAHHH!

Listen

Pinch me if I'm dreaming

As a matter of fact

I take that back

Let me lay there (please)

Inside of your love.

Listening to your heart beat

Girl there ain't no feeling

Better than feeling

On your body

Girl don't you move a muscle

Girl I just wanna touch you

*[Bridge:]*

If you ever took your love away

I can truly say

I'd die right here today

Don't give me the world

I just want my girl.

*[Chorus: x2]*

If I could have anythang

I put it on everythang

That it would be you you you you

I just want you you you

You are my love

And my for you girl is all that I need

If I had nothing more.

That our love I'll be just fine with our love

(Sing on boy)

Your shoes can't be filled they cannot fill your heels

My truth is in you there is nothing that's real

As our love I'll be just fine as long as you're by my side

(Woman)

*[Bridge:]*

If you ever took your love away

I can truly say

I'd die right here today  
Don't give me the world  
I just want my girl.

*[Chorus:]*

If I could have anything (Woahh)  
I put it on everything (Woahh)  
That it would be you you you you (I just want)  
I just want you you you

*[Chorus:]*

If I could have anything (I you told me I can have  
anything)  
I put it on everything (Everything)  
That it would be you you you you (I just want)  
I just want you you you (Listen to me)

What would I do where would I be?  
If there was no you there'd be no me  
Why don't you think about that now  
WOAHH

What would I do where would I be?  
If there was no you there'd be no me  
I put it on everything  
That it would be you you you you  
I just want you you you
