Excuse me woman but there's somethin' on my mind
And I gotta get it off my chest, baby girl, I must confess
And I'm tryin' to say it with finesse

And it won't take nothin', just a little bit of time
And a body up inside your dress
I promise it will be the best and baby, I ain't talkin' sex

Can we make love tonight?
Get the champagne poppin' off tonight
Vickie Secrets comin' off tonight

So can we make love tonight?
Bubble bath with only candlelight
And massage your body, bet you'll like it

'Cause you gon' feel it from the minute
That you walk in the room
I'll have the candles burnin' while the waters runnin'
And the music playin', there'll be no delayin'

Outside it's rainin' but it's cool
'Cause I'll just pull you closer
And hold you tighter and I'll say to you

Let's take this night for lovin' and make it last till
mornin'
We'll be touchin' and we kissin', freakin', so can we

Can we make love tonight?
Get the champagne poppin' off tonight
Vickie Secrets comin' off tonight

So can we make love tonight?
Bubble bath with only candlelight
And massage your body, bet you'll like it

Can we make love tonight?
Get the champagne poppin' off tonight
Vickie Secrets comin' off tonight

So can we make love tonight?

Bubble bath with only candlelight
And massage your body, bet you'll like it

Baby, sing it with me

Let's take this night for lovin' and make it last till
mornin'
We'll be touchin', kissin', squeezin'
Let's take this night for lovin', and make it last till
mornin'
We'll be touchin', kissin', squeezin'

Can we make love tonight?
Get the champagne poppin' off tonight
Vickie Secrets comin' off tonight

So can we make love tonight?
Bubble bath with only candlelight
And massage your body, bet you'll like it

Can we make love tonight?
Get the champagne poppin' off tonight
Vickie Secrets comin' off tonight

So can we make love tonight?
Bubble bath with only candlelight
And massage your body, bet you'll like it

Can we make love tonight?
And make it last till mornin'
Get the champagne poppin', and your Secrets droppin'
And it ain't no stoppin' while our body's rockin'

If you on top and girl, you workin'
Now it's mornin' and the bird's is chirpin'
We still goin', we still goin', we still goin'
We still goin', we still goin', we still goin'
