Man & Woman Convo

Man: It meant nothing I was helping her that's all

Woman: The way you helped me?

Man: I thought she was your friend?

Woman: So you wouldn't fuck her?

Man: That language does not become you

Woman: yes. You'd rather I be demure

Man: I'd rather you be rational

Woman: Meaning what? That I say nothing about what I see what I hear?

Man: What have you heard?

Woman: That you're capable of anything

Man: Well if you didn't tell me about then it couldn't have been very upsetting

Woman: You make me sick to my stomach. This whole arrangement of...

Man: What arrangement?

Woman: That I do accept what you tell me and there's nothing more. That I aid you in the business you conduct and pretend I don't now what that business is.

Man: I don't recall you ever saying no to anything I put in front of you. You make a little noise every now and then to remind me what a god person you are but a good person wouldn't be here right now.
