Another man is gone, and I know it's coming,
You're about to say don't go, don't go!
Believe me what I tell, wish that there was something,
Something I can say, but you know, you know!
Never know how long I'm ever gonna be gone,
If I could buy minute, you know that I can spend it to
you!
Kiss and touching, hugging, making love, making love!

Chorus:

I wish money could buy me time,
I wish I could stay a day through the night, but it's
never, never!
I try to say what's going on, but before you know it,
You moan and is gone,
Cause it's never, never, never!
I love what they do, that's why I trusted you,
And I would, if I could, but I can't cause she's calling
me too!
I swear it's not even a time in the day, no, no!

So call me busy, busy, busy, bee
Cause I'm never ever free,
By the time I get her finish,
She's begging me not to leave, no!
Wish there was so more me,
And not enough to...
And I wish there was a loving me,
But there's only one,
I just need to pardon me,

Why your guys is calling me?
I checked... find another diamond,
She'll never...
... missing you,
It's a trick how I live,

Chorus:

I wish money could buy me time,
I wish I could stay a day through the night, but it's
never, never!
I try to say what's going on, but before you know it,

You moan and is gone,
Cause it's never, never, never!
I love what they do, that's why I trusted you,
And I would, if I could, but I can't cause she's calling
me too!
I swear it's not even a time in the day, no, no!
... we chill,
... perfect, cause it's nothing, never, never,
Wanna be yours...
But I can't, so I'm afraid that I'm gonna have to take
Gonna have to take that..
I wish I could stay a day to the night, but it's never,
never!
I try to say what's going on, but before I know it,
You moan and it's gone.
Cause it's never, never, never!
I love what they do, is that why I trusted you,
And I would, if I could, but I can't cause she's calling
me too!
I swear it's not even a time in the day, no, no
