"On Top"

Aye, how was your day baby?... Okay!
Come here, now just sit down, I just wanna take all that
off your mind.
Naw I got it, lemme get your shoes off baby; just relax.
I've been waitin' all day for you...

Girl, you know, that my love ain't goin nowhere,
And baby girl did know your so precious and rare?

I just wanna show my appreciation, girl I got this
craving for you...
Baby come & kiss my lips - would you mind if we do it
like this?

I want you on top (to start off), I want you to find your
favorite spot (uh oh)
When you find it make your body rock, you got my
heart.
I'm gonn' finish what you start, make your love come
down.
Then I'm gonn' get on top (my turn) & once I get there
I'm not gonn' stop (ohh noo)
Till I feel your body gettin' hot
You got my heart, wanna take you to the top, make
your love come down.

Girl you know, your so beautiful even with your clothes
on...
Baby girl you should know you glow when you take dem
thangs off

I just wanna show my appreciation, girl I got this
craving for you,
Baby come and kiss my lips (girl), would you mind if we
do it like this?

I want you on top, I want you to find your favorite spot
(and when you)
When you find it make your body rock, you got my
heart;

I'm gonn' finish what you start, make your love come down.
Then I'm gonn' get on top (my turn) & once I get there
I'm not gonn' stop (keeeep going till I)
Till I feel your body gettin' hot
You got my heart, wanna take you to the top, make your love come down.

Now you mountin' on me, I'm mountin' on you
Drippin' on the bed too - Girl I love it
Oohh you tastin' so sweet, & the only thing I want from youu...

I want you on top; I want you on top of me and you,
You can do whatever you want to do,
When you find it make your body rock...
Make your love come down, then I'm gonn' get on top -
And once I get there I'm not gonna stopp
Till I feel your body gettin' hot, you got my heart,
wanna take you to the top,
Make your love come downnnn.
I want you on top...
Make your love come down
