(Verse)

Here we go, here again, here again
I wanna know, how you been, how you been
Such a surprise, didn't think you'd come back so soon
Got drink in my cup, got weed rolled up
But I'm high off you tonight
Bet yo ass ain't think I would come hard upon this
Chapter V
I've toured the world and made some money, learned
some different things
And now I'm here to show your body what these
nigguhs can't
Your panty dropper has returned and I'm goin' low
To please your body is my mission if you don't know
Just take our time I just wanna go nice and slow
First thing take off them clothes
But you can leave them panties on
You've had my love before
So you know I might make 'em soak

(Chorus)

'Cause I'm your panty wetter
I'm your panty wetter
You ain't gotta take 'em off
Just pull 'em to the side
Don't you try to run girl
Ain't no place to hide
I'm your panty wetter, wetter
And you know it don't, it won't
Get no better
No one is gon' get you wetter

(Verse)

Here we are you and me, you and me
A special show made for two to see
We 'bout to make the best love you've ever dreamed
But you gon' have to come up out them clothes
You can leave them panties on
You've had this love before
So you know I 'bout to make you soak

(Chorus)

'Cause I'm your panty wetter
I'm your panty wetter
You ain't gotta take 'em off
Just pull it to the side
Don't you try to tun girl
Ain't no place to hide
I'm your panty wetter, wetter
And you know it don't, it won't
Get no better
No one is gon' get you wetter

Break it down
All the way down

(Outro)

I'm your panty wetter, I'm yours, I'm yours
Panty wetter
You ain't gotta take 'em off
Just pull 'em to the side
Don't you try to run girl
Ain't no place to hide
I'm your panty wetter
And you know it don't, it won't
Get no better
No one is gon' get you wetter
No one is gon' get you wetter than a fountain
Waterfalling off my mountain
It's such beauty when meet
I'm the sand and you're the sea
I'm the pipe girl you're the leak
It's only one thing left you can do for me
Take 'em off, take 'em off, take 'em off
Please
