I'd do anything
Just to hear your voice

[Verse 1]

It's been too long
Since I seen your face
Since I smelled the fragrance of your perfume
And I can't get a hold of myself no more
I tried to play it cool
But I'm simply breakin breakin down girl
And I need you to build me up again girl
Build me up again

I neglected you
Expected you to stay forever (yes I did)
Now your gone and I'm suppose to find better (no no)

[Chorus]

Girl I need you to
Please return my call
Cuz I'm sorry
And I need to hear from you
I was wrong, that's why I
Girl I need you to
Please return my call
Promise I regret it all
Only we know what I've lost
I just wanna talk
So where ever you are
Please return my call

[Verse 2]

Now I'll give up anything
For the joy only your soul can bring
Just to see your face walk through that door (oh)
But until then I'm gone pray some more
Yeah, huh, I'm gone pray some more
Please by the bedside
Cuz your the best thing to happen in my life
And I gotta getcha back
And I'm dealin with the fact, that I know oooo ohhh
I neglected you

Expected you to stay forever (ooh ooh)
Now your gone
And I'm suppose to find a new love (oooh)

[Chorus]

Girl I need you to
Please return my call
Cuz I'm sorry
And I need to hear from you
I was wrong, that's why I
Girl I need you to
Please return my call
Promise I regret it all
Only we know what I've lost
I just wanna talk
So where ever you are
Please return my call

[Breakdown Talk]

You know, baby I just need you to understand that my
life is, is not worth living with you.
And, and I know you mad, I, I know you mad, better yet,
I know your disappointed (sigh)
But I promise I'll do better. Just Pick up the phone

[Chorus]

Girl I need you to (Girl I need you to)
Please return my call (Please)
Cuz I'm sorry (wooo)
And I need to hear from you (I just wanna hear from
you)
I was wrong, that's why I
Girl I need you to (need you to)
Please return my call (uh)
Promise I regret it all (I regret it)
Only we know what I've lost (we know what I lost)
I just wanna talk (I just wanna talk)
So where ever you are (where ever you are)
Please return my call (Please return my call)

Girl I need you to
Please
