...love... I got bad  
It's a... in my style,  
Why these other niggers out here chasing  
You need love and I'm the one to replace them  
Get with me, you can see  
How it is to be...  
I'm the one let me go and prove it  
Show me something your man ain't do it  
He ain't the one for you girl why you waiting  
Stop wasting time, stop playing  
You need someone to lace you  
And you know it's me

Yeah the time to give you what you need  
... leaving, with me girl you should be  
... got a new chick... you don't even care  
... so you put your finger up and just throw it in the air  
You put it in the air, said you put in the air  
Said you put in the air, said you put in the air  
Let's take, I got... pulling off tearing off my clothes  
... show me where the cash at  
Where's your cheese, nigger please  
Then you wondering how I do this  
... your girl with me... she's moving  
He ain't the one for you girl why you waiting  
Stop wasting time, stop playing
