When you see me in the videos, babe
Do I make yo body go crazy
Or when you catch me in a magazine, baby
Do you rip me out and save my page

If my voice comes through yo speakers
And yo legs suddenly get weaker
This for you, I'm hopin' it's gone getcha through
Till I can get to you

Tell me watch ya see, when you think of me?
I want this to be just like yo fantasies, oh gurl
Gurl, I'm comin over, got some things to show ya
Turn yo stereo up

Got some sex for yo stereo, gurl, you want to bump it
Turn it up don't turn it down, promise that you'll love it
Put yo hands on the radio, don't be scared to touch it
Imagine I was there, baby, pullin' on yo hair

Got some sex for yo stereo, show me how you'd take it
My words move like hands and I'm singin' to ya naked
Got some sex for yo stereo, gurl, you wanna bump it
Turn it up don't turn it down, promise that you'll love it

Now, can my ladies in the back make some noise
It don't matter where ya are
In da crib, at yo job, or in da car
It's for you where ever you can stick me in

Let the record spin, baby, it's on you wat ya gonna do
Choice is all yours, you can put me in fast forward
Or we start the record ova
Can ya feel my words creepin' up yo legs, takin' off ya
clothes?

Got some sex for yo stereo, gurl, you want to bump it
Turn it up don't turn it down, promise that you'll love it
Put yo hands on the radio, don't be scared to touch it
Imagine I was there, baby, pullin' on yo hair

Got some sex for yo stereo, show me how you'd take it

Oh, my words move like hands and I'm singin' to ya
naked
Got some sex for yo stereo, gurl, you wanna bump it
Turn it up don't turn it down, I promise that you'll love it

And you need a li'l bass, so let me give you a taste
I want you to feel my subwoofa, baby, when I give it to
ya
Now, ya need some height, so I'm gonna make you
touch the sky
Ooh gurl, now slide yo body near

Gurl, take them head phones so I can hear you
When you moan, let me just adjust yo knob
Turn it till it I get you hot, get you hot
Get you hot, I won't stop, oh

Got some sex for yo stereo, gurl, you want to bump it
Turn it up don't turn it down, promise that you'll love it
Put yo hands on the radio, don't be scared to touch it
Imagine I was there, baby, pullin' on yo hair

Got some sex for yo stereo, show me how you'd take it
My words move like hands and I'm singin' to ya naked
Got some sex for yo stereo, gurl, you wanna bump it
Turn it up don't turn it down, promise that you'll love it
