I made this ones for your girlfriend
this ones for your girlfriend
oohho oohho

You gave him your love (your love) oohh
showed him something that he never had before
but he didnt want your love (your love) noo
so you startin over and youre on your own
but that aint so bad , baby youre in luck
cause it just so happens that im lookng for love
so why dont we take a little time
to see if its for real (to see if its right)

you dont need no money to night
you just need to ride with me tonight
girl you dont need no man tellin you that you cant
you dont need no one else baby cause here I am
you just need me girl
(I know just) what you need
(I got just) what you need , and I'll give it to you
want you to see girl
(I know just) what you need
(I got just) what you need and I'll give it to you
you just need me girl

to pick you up and show you round
whenever we up baby its my town
Im on the way come on get up
took off my sweats and put up the truck
throw on my polo pull out the drop
step in your heels put on a top
get ready

you dont need no money tonight
you just need to ride with me tonight
girl you dont need no man tellin you that you cant
you dont need no one else, baby cause here i am
you just need me girl
(I know just) what you need

(I got just) what you need and I'll give it to you
want you to see girl

(I know just) what you need
(I got just) what you need and I'll give it to you
you just need me girl

I swear the world stops spinning when youre around
I take my time every minute to love you down
give me your smile , girl forget how he made you frown
take a chance girl im telling you
that I could be the one for you
Im gone do what he can't do girl
let me be the one to show you love
be the only one youre thinking of
love is blind so you cant see
but you just need meeee

you just need me girl
(I know just) what you need
(I got just) what you need and I'll give it to you
want you to see girl
(I know just) what you need
(i got just) what you need and I'll give it to you

you dont need no money tonight
you just need to ride with me tonight
girl you dont need no man tellin you that you cant
you dont need no one else baby cause here I am
you just need me girl
(know just) what you need
(got just) what you need and I'll give it to you
want you to see girl
(know just) what you need
(got just) what you need and I'll give it to you
you just need me girl
