She's setting me on fire  
As I watch her move  
She's reading my desire  
If she gets her way, she's gonna make me pay

She is thunder and she's lightning boy  
Electricity and sweat  
This kind of woman is frightening me  
I wanna take her home but I already know

She's too hot, hot to handle  
The fuse is burning away  
Smoke is there, hanging in the air  
This game is dangerous to play

I'm loosing all my senses now  
Forgetting space and time  
She's stolen all my defenses now  
I wanna take her home but I already know

She's too hot, hot to handle  
The fuse is burning away  
Smoke is there, hanging in the air  
This game is dangerous to play

I know there's gonna be a sensory explosion  
Tasting fantasies into the night  
Can't help it now this girl is touching my emotions  
It could be so easy, it could be so right

She's too hot, hot to handle  
The fuse is burning away  
Smoke is there, hanging in the air  
This game is dangerous to play

She's too hot, hot to handle  
The fuse is burning away  
Smoke is there, hanging in the air  
This game is dangerous to play
