I never knew life could be like this  
Never thought that I would be  
the one that you would kiss  
I never knew love could be so rough  
But now I've found the real thing  
I can't get enough

The sweetest surprise caught me tonight  
Right there in your eyes while I was kissing you  
So don't say that you don't love  
Everything you dream of could be here  
uh~uh

I used to wish, I used to dream  
But now I'm living my heart's wildest fantasy  
So I began to believe  
Because our love is there for everyone to see

The sweetest surprise caught me tonight  
Right there in your eyes while I was kissing you  
So don't say that you don't love  
Everything you dream of could be here  
uh~uh

On and on where good things never end  
woo~hoo  
On and on where we never pretend  
ah yeah

The sweetest surprise caught me tonight  
Right there in your eyes while I was kissing you  
So don't say that you don't love  
Everything you dream of could be here  
uh~uh  
So don't say that you don't love  
Everything you dream of could be here
