Agressive

Aggressive

I can see my future will repeat the past
We are living in a real game
We are digging our graves and we are digging it fast
We lived our lives without a name
Chain of fear feel the shiver
This is the beginning of our game
Make the fear create the shiver
This is only way to escape

Agressive

They will make a hole between your eyes

Agressive

They'll suck all that's in your mind

Agressive

Can you deny?

Agressive

One day we'll also be agressive

The planet's gonna die over our heads
But they fight for the money
The north pole is melting and nature is ending
And a lot of people are dying from hunger

We'll wait for the rain to fall
To clean the blood that is on us all
While we pray kneeling in the corn
One day we'll also... be... agressive
