#### Verse 1:

Help me find a way  
Or a good reason to get up out of this bed  
It seems no matter what I do or how much I make  
It's never good enough.  
To face the same problems, the same debts,  
Sometimes even adds more stress.  
And I don't know who claimed this a simple life  
Try to walk in my shoes, see through my eyes.  
People just don't seem real  
Cause no matter what I do or how much I  
Make it's never good enough.

#### Pre-Chorus:

Working takes up so much time  
It eats your life away  
It's hard to hold on to what I  
Have cause I keep finding myself

#### Chorus:

Five steps forward  
Ten steps back  
Tryin' to get ahead  
But keep fallin' off track.  
Running around  
And around again  
(Repeat chorus)

#### Verse 2:

To pickup where you left off  
Is all you have to look forward  
To each day  
How do you get ahead  
When you're behind and the hole  
You've dug gets deeper  
Just to quit tryin is such a cop out  
I couldn't cheat myself  
And I don't Who claimed this a simple life  
All the money I make  
Barely gets me by but I keep hanging on  
Cause no matter what I do or how much I

Make it's never good enough

Pre-Chorus:

Working takes up so much time  
It eats your life away  
It's hard to hold on to what I  
Have cause I keep finding myself

Chorus:

Five steps forward  
Ten steps back  
Tryin' to get ahead  
But keep fallin' off track.  
Running around  
And around again  
(Repeat chorus)

Bridge: All the money I make  
Barely gets me by. All the money  
I make is never good enough.

Pre-Chorus:

Working takes up so much time  
It eats your life away  
It's hard to hold on to what I  
Have cause I keep finding myself

Chorus:

Five steps forward  
Ten steps back  
Tryin' to get ahead  
But keep fallin' off track.  
Running around  
And around again  
(Repeat chorus)
